

Loyalhanna Watershed Association Upper Latrobe Passive Treatment Project

Addendum #2

August 6, 2009

Project Specifications Update

- Task J: Wetland Clay Liner
 - The GSE BentoLiner LNSL is approved for use in the constructed wetland.
- Task H: Water transfer infrastructure
 - An approved material for the troughs used to transfer water between ponds is Crane Materials International's vinyl sheet piling. Contact Alex Houwing at 800 256 8857 ext 1139.
